Dear Dave,

From our first consultation with you, when we were looking to find a company to brick-pave our driveway and front entrance to our house, we were sold on your company! You portrayed your company with complete professionalism, which gave us a sense of comfort and security that your company would provide us with the service and competence that we were looking for.

We consequently recruited you for the brick-paving project, which was completed in a timely manner, by excellent workmen, and at a price that was extremely competitive too.

Not only are we COMPLETELY satisfied and thrilled with the result, but also appreciated your suggestion and offer to include brick borders around our flower beds that flank the front area of our house.....an artistic touch that rounded off the project beautifully!

Additionally, to your credit, you are an honorable man of your word, as the couple of things you promised to complete after the project ended, were followed through 100%.

We feel as though our house has had a "facelift", and have had so many compliments from our neighbors and friends, to whom we have obviously referred you and your company. We would also like to offer to be a reference for you and your company at any time, to any of your future customers.

Thank you so much for doing a wonderful job! Hopefully we will do more business together in the future!

Sincerely,
